ITALY ON THE VERGE OF WAR

STRANCONA MAN IN ITALIAN ULTIMATUM

IS SHOT DOWN BY SHOT FROM BUSH

ITALIANS INTENTION TO OCCUPY TRIPOLI

John Donnan Now Lying at Home in Eastern Part of Sister City in Serious Condition—Police Are Searching for the Person Who Fired the Shot

Stricken down by a bullet from a high calibre rifle in the hands of an unknown party secreted in the bushes John Donnan, proprietor of the Queen Alexandria dairy, now lies at his home, in the eastern part of Strathcona, in a serious condition. Whether or not his wound will prove fatal the medical men in attendance are not in a position to state as yet, as they have been unable to locate the bullet, which entered his back and which it is feared has pierced his lungs.

Mr. Donnan had just completed sending out his drivers with their wagons and was walking along Mill creek looking for some cows when the shot was fired. As to who fired it nothing has been learned as yet, as the guilty party did not stay to inquire into the nature of the victim's wounds. Mr. Donnan had seen no one and was just turning to look back to the house when the shot was fired from the opposite side of the creek. Although painfully wounded he managed to drag himself to a point where he could call to the men in the stables, and there, picking him up, conveyed him to the house and summoned medical assistance.

That it was an accident when he was shot Mr. Donnan cried out and if the shooting were accidental it is looked upon as reasonable that the guilty party would have emerged from the bush and assisted the wounded man.

The city police of Strathcona have been notified of the shooting and left at once for the scene of the crime or accident. This afternoon the medical men in attendance are doing their best to locate the bullet.

Bullet Located.—At 2:30 this afternoon the doctors located the bullet and are now attempting to remove the bullet, which entered just below the shoulder blade. The doctors are of the opinion that it is a .30-06, but the police say that it is a .22. Its removal will undoubtedly prove that the contention of the medical men is correct.

Mr. Donnan is still conscious and states that he heard the report of the gun and then felt the bullet strike him. It was fired from the northwest and the police have learned that there was some shooting in that locality during the morning and are this afternoon investigating.

BUILDING PERMITS FOR THE YEAR BREAK ALL FORMER RECORDS

Total for Nine Months Over \$3,014,320 and Indications Are That \$4,000,000 Mark Will Be Passed Before End of Year—\$307,540 for Month September

For the first time in the history of the city the permits issued for the past few days have been greater than the total for the year 1911 was \$3,014,320. The three months mark was passed yesterday.

Although only nine months of the year are gone, the total up to noon for day was almost a million in excess of the total for the twelve months of 1910. Last year the permits issued for which permits were issued, was estimated to be \$2,150,106. The highest previous total was \$2,500,000 in 1908.

Present indications are that before the end of the season the total for 1911 will be greater than \$3,000,000. But it had not been for a number of years that the permits issued for the year have been greater than the total for the year. The permits issued for the year 1910 were \$2,150,106. The highest previous total was \$2,500,000 in 1908.

Following are building permits issued for the month of September:

RUSHING THE GRADE.

Peter Gunn, M. L. A., who is in the city today from Lake St. Anne, says that the contractors on the Canadian Northern Peace River line are making great progress at the present time and that they will yet carry out their original intention of completing the grade to the Peace River before the winter closes in on them. The contractors have 250 teams of their own on the grade, besides which there are quite a number of sub-contractors with outfit of their own.

NOTED DIVINE IS NOW TOURING WEST

Rev. Thomas Rippon of Leeds, England, one of the British delegates to the oecumenical Methodist conference which meets in Toronto next week is a visitor in Edmonton accompanied by Mrs. Rippon and their son. They are guests at the King Edward hotel. Dr. Rippon is chairman of the Wesleyan synod at Leeds, England, and is also chaplain to the Lord Mayor of the city. He is making a trip through the west to learn something of the development work that is being carried on here and to the capital this morning he expressed surprise at the remarkable manner in which the city is growing industrially.

"Everyone seems to be in good circumstances here," he said. "I have seen practically no poverty since coming to Canada. Little drunkenness in evidence and you have no beggars on your streets. This is somewhat of a contrast compared with our own country. There is ample evidence of an interest in religious matters in the magnificent church buildings that have been erected in all Canadian cities. Canadian religious institutions appear to be working along right lines, providing for the social as well as the spiritual welfare of the people."

Although the delegates are still keeping their headquarters in the flower block which they will use during the provincial bye-elections, there is no great measure of activity there at the present time, and very little talk regarding who their candidates are likely to be.

M. S. McCarthy, ex-M. P., will be given the Calgary nomination by the Conservatives. He has already decided to accept it, and it is also stated that he would be given the leadership of the opposition in the local house if elected.

OLIVER SAYS HE WILL NOT RESIGN

DECLARES RUMOR IS ONLY SAMPLE OF YELLOW JOURNALISM NOW PREVALENT IN WEST.

(Western Associated Press.) Winnipeg, Man., Sept. 28.—Hon. Frank Oliver, who is here on route to Ottawa denied emphatically the report published in some western papers to the effect that he is contemplating resignation from his position. He stated that the story was nothing more than a development of the yellow journalism now prevalent in the west, adding that he had absolutely no thought of retiring from politics until beaten at the polls.

He expressed no doubt that he would be re-elected in the coming election, and that he was not at all discouraged by the result in Alberta and Saskatchewan, but disappointed that the party had not so far gained as he wished. Among other western members present were Dr. Neely and Mr. Champagne.

BROKE LIQUOR LAWS.

H. Treke, proprietor of an hotel at Calgary, was fined \$100 for the violation of the liquor ordinance. The case was heard by the court yesterday for breaking the liquor ordinance. The case was heard by the court yesterday for breaking the liquor ordinance. The case was heard by the court yesterday for breaking the liquor ordinance.

CALGARY PARTIZANS PREPARE FOR BYES

CONVENTIONS TO BE HELD IN IMMEDIATE FUTURE TO NAME CANDIDATES.

Calgary, Sept. 28.—Although Premier Sifton has made no announcement as yet regarding the date on which the provincial bye-elections will be held, arrangements are already completed for the calling on a convention for the election of the executive and it is probable that the convention to name a candidate for that riding will be held in Calgary early next week, while towards the latter part of the week the liberals of this city will hold their convention to name the liberal candidate for Calgary.

Speculation is already rife as to who will be the successful nominee, but in the opinion of the local press, the honor will fall to the late Mr. Arthur, a brother of the late member, and one of the best known ranchers in the riding. Mr. McArthur has always been an active worker all over the riding and is well known to the electors. He is popular and a good speaker, and would be a strong candidate to put in the field.

Other names mentioned to the local press are Roy Gowan, of Gleichen, president of the Gleichen liberal association, and W. Vickers, of St. Mary's, who is also a good speaker and has many friends.

That the conservatives are prepared to follow up the advantage of the general election is certain. On Monday afternoon, E. E. Michener, M. L. A., of Red Deer, leader of the opposition in the local house, was the city and a conference of conservative workers was held at which the situation in general was discussed. At this meeting it was decided to call the conservative convention in both Gleichen and Calgary at an early date, but no date was fixed.

Although the delegates are still keeping their headquarters in the flower block which they will use during the provincial bye-elections, there is no great measure of activity there at the present time, and very little talk regarding who their candidates are likely to be.

M. S. McCarthy, ex-M. P., will be given the Calgary nomination by the Conservatives. He has already decided to accept it, and it is also stated that he would be given the leadership of the opposition in the local house if elected.

OLIVER SAYS HE WILL NOT RESIGN. DECLARES RUMOR IS ONLY SAMPLE OF YELLOW JOURNALISM NOW PREVALENT IN WEST.

(Western Associated Press.) Winnipeg, Man., Sept. 28.—Hon. Frank Oliver, who is here on route to Ottawa denied emphatically the report published in some western papers to the effect that he is contemplating resignation from his position.

He stated that the story was nothing more than a development of the yellow journalism now prevalent in the west, adding that he had absolutely no thought of retiring from politics until beaten at the polls. NEW CANADIAN COINS.

(Western Associated Press.) Ottawa, Ont., Sept. 28.—The issue of Canadian gold coins which will be made in course of a few weeks will bear King George's head on one side and on the other, Canadian coat of arms. The dies are now on the way from England, and the coins will be commenced as soon as they arrive in the capital. The designs for five and ten dollar pieces are practically the same. Five will be generally known as a "George" and ten as a "Double George."

PREPARE TO FIGHT THE TEMERE DECREE

LITERATURE EXPLAINING RULING WHICH CAUSED CONTROVERSY WILL BE DISTRIBUTED.

(Western Associated Press.) Toronto, Ont., Sept. 28.—There is to be no let up in the fight against the Temere decree. Although the executive committee of the evangelist alliance has been convinced that the service for carrying on of the propaganda has been completed.

Rev. E. D. Silcox, secretary of the Evangelist Alliance says that the archbishop's decree is a violation of the alliance to be held this week to complete the service for carrying on of the propaganda of a passenger train on a large mass meeting of protest at an early date in Massy hall. In addition to this a canvass is to be made of the country and there will be a general distribution of literature explaining the import of the decree and its ultimate consequence.

THREE MEN KILLED IN OHIO WRECK

PASSENGER TRAIN CRASHES INTO RES.-VA FREIGHT CARS LOADED WITH BRICKS.

(Western Associated Press.) Canton, Ohio, Sept. 28.—Three men were killed, three seriously injured, and a dozen persons received minor injuries in the collision of a passenger train with a freight train loaded with bricks. The passenger train was en route from Canton to Cleveland, and the freight train was en route from Canton to Cleveland. The collision occurred at a crossing near Canton.

ISSUE WARRANT FOR ARREST OF AGENT

MOUNTED POLICE SEARCHING FOR F. STEWART, FORMERLY CON- NECTED WITH REALTY FIRM.

A warrant has been issued for the arrest of F. Stewart, sales agent for the real estate firm of J. G. Tipton and company, who is occupying the office of the Western Union, limited, Jasper street. Stewart disappeared yesterday morning and he is alleged to have taken with him the sum of \$270, realized in the sale of a house at the Strathcona estate, Strathcona, and an overcoat valued at \$50.

He has been in the employ of the firm for about a week. Yesterday morning he did not appear at the office to open it at the regular time and when enquiry was made no trace was found of the man. He is thought to have taken the 9 o'clock G.T.P. train to Winnipeg.

Conservators of the Edmonton constituency will celebrate the victory of the party in the Dominion at a banquet to be held on Tuesday evening of next week. The banquet will be in all probability held at the army on Second street, if this can be secured. The banquet will be in all probability held at the army on Second street, if this can be secured.

Regarded as Tantamount to a Declaration of War—Turks Attempt to Land Troops in Disputed Territory—Resort to Arms May Come at Once

Rome, Sept. 23.—A note addressed by the foreign office to the Italian charge d'affaires at Constantinople very recently pre-emptorily fixed twenty-four hours as the period within which the Turkish government must reply to the demands therein set forth. The Italian minister of foreign affairs, Marquis di Sanfilippo, has addressed to the Italian charge d'affaires at Constantinople, Signor di Martino, a note which says: "During a long series of years the government of Italy never ceased to make representation to the powers upon the absolute necessity of correcting a state of disorder to which the government of Turkey had abandoned Tripoli and Cyrene. These regions should be admitted to the benefits of progress realized by other parts of the Mediterranean and Africa."

This transformation, which is imposed by the general exigencies of civilization constitutes for Italy a vital interest of the first order by reason of the slight distance separating these countries from the coasts of Italy.

Notwithstanding the attitude taken by the government of Italy, which has always accorded the support of the imperial government in the different political questions of recent times, and notwithstanding the moderation and prudence shown by the government of Italy, its views concerning Tripoli have been badly received by the imperial government. But, more than that, all enterprise on the part of Italians in the regions mentioned has been systematically opposed and unjustifiably crushed."

In the note Italy announces her intention to occupy Tripoli and Cyrene.

NO OTHER NOTE SINCE ULTIMATUM

London, Sept. 28.—The Times Constantinople correspondence learns from official quarters that the Italian government has made no communication to the press since Sunday, when a note was presented bearing on the Tripoli difficulty, but it is believed that the Italian charge d'affaires yesterday made an official statement to the grand vizier of ominous character. He admitted to the vizier that Italian public opinion appeared to favor the proclamation of a protest to over Tripoli for political, economic and geographical reasons. "The German ambassador to Turkey, Baron Marschall von Bieberstein, in an audience with the sultan yesterday assured his majesty that Germany would make friendly representations in behalf of Turkey to the Italian government. He was unable to promise, however, that the representations would be successful."

Satisfaction has been caused at Constantinople, says the correspondent, by the news that the Derna loaded cargo at Tripoli.

EQUIVALENT TO DECLARATION OF WAR

Turin, Sept. 27.—The courier of Despatch agency Italy has received an unsatisfactory reply from Turkey and will answer with a more hostile note.

The Corriere della Sera says the landing of men and munitions at Tripoli by the Turkish steamer Derna constitutes a crisis. The Italian government, the paper says, was awaiting such an act before proceeding to the occupation of that province.

TURKISH STEAMERS APPEAR

Rome, Sept. 27.—It is semi-officially announced that the Turkish steamer Derna has arrived at Tripoli with a small contingent of soldiers, some arms and a quantity of food supplies aboard.

SQUADRON AT TRIPOLI

Tripoli, Sept. 25.—The first Italian squadron commanded by Rear-Admiral Aubrey, composed of four cruisers, three destroyers and a number of torpedo boats, is now anchored in line off Tripoli. The second Italian squadron is at Lahrato awaiting orders to convey the troops. Up to the present no Italian force has been landed in Tripoli.

EUROPEANS LEAVING

Tripoli, Sept. 28.—The native population of Tripoli is quiet, but Europeans are leaving the country in large numbers.

Readers of the Capital are requested to favor the management by reporting any irregularities in delivery.

ANNEXATION, NOT RECIPROCITY, THE BOGEY

With the returns all in, it is very apparent that it was not reciprocity that eastern Canada voted against, but annexation.

In the eastern mind there was a conviction that the reciprocity agreement was a concession to the grain growers of the west, and coupled with this there was the eastern superstition that the large number of Americans who have settled in Western Canada have given the west a pro-American tinge, as a result of which, according to the eastern idea, the west would be quite willing to accept reciprocity even though they recognized the menace of annexation in it.

Waving the old flag and parading the annexation bogey through the eastern counties the conservatives managed to distract attention from the business advantages of the pact and succeeded in getting a verdict overwhelmingly against reciprocity in constituencies which are essentially liberal and have always been for lower tariff.

The mistake which the government made was in not going far enough. The farming constituencies, in which the government had a right to expect support of their policy, voted strongly against reciprocity, indicating thereby that the eastern farmers did not see in the pact the attractiveness which it presented to the grain growers of the west.

Had the liberal government rounded out the pact by removing the duty entirely from agricultural implements and other commodities which eastern and western farmers alike must buy they would have had something on which to appeal to eastern agriculturalists with and which they would easily have found it within their ideas of loyalty to support.

In so doing the liberals would have sacrificed nothing, as the manufacturers were almost unanimously against them, anyway.

CITIZENS EMPHATIC IN SPIRIT OF CONFUSION

When the gas plebiscite was first proposed the Capital contended that the council had no right to put it up to the ratepayers to decide which kind of gas should be installed in the city. The Capital's contention was that this could only confuse the issue.

The returns show that there were 144 spoiled ballots, leaving room for no other conclusion than that the electors were far from clear as to what the question was that they were expected to answer.

In spite of this confusion, however, the conviction of the ratepayers that the city should retain the gas franchise was clearly recorded, indicating indubitably that the citizens of Edmonton are under no misapprehension about what they want to do about the gas business.

A MENACE TO AMALGAMATION

The mayor and commissioners of the city of Strathcona are going to approach the mayor and city council of Edmonton to ask that when amalgamation goes into effect Strathcona be given a commissioner to attend exclusively to Strathcona business.

And herein lies the very crux of the only real danger to amalgamation. The recognition in any way of the old boundary lines is sure to promote a feeling of sectional jealousy and rivalry which, if it ever becomes firmly set, will certainly wreck amalgamation. Edmonton has already had a taste of this in the "East End" and "West End" feeling of three or four years ago, but in the case of Edmonton and Strathcona the differences would be much more accentuated by the circumstance that there is a natural boundary which would furnish the dividing line, on either side of which citizens might cherish grievances against the other. To appoint a commissioner and set him apart as the administrator of any particular district would be just as great a mistake as it would have been to appoint a commissioner three years ago to see that the residents of Naimayo avenue got a square deal.

The chances of the success of amalgamation depend entirely upon the ability of the citizens resident in all parts of the Greater Edmonton to recognize that they are residents of a city which is all one and rather than residents of a certain part of the city, as residents of which part they must protect themselves from the city at large.

A PACKET OF PERPLEXITIES

While Premier Sifton is in Winnipeg with William Mackenzie, no doubt arranging the details of a railway policy for the north, a galaxy of the finest legal talent in the whole Dominion is gathering in Edmonton for the hearing of the appeal in the Waterways case.

The problem, in brief, is this: Suppose Premier Sifton does evolve a railway policy by arranging with Mackenzie & Mann to construct a road into the north country under government guarantee; and then suppose the government is defeated on the Waterways litigation; and suppose Clark, having gained his point in the court, takes the ground that his right to build a road in the north has been injured by the action of the government in delaying him in construction while another road was arranged for; and suppose Clark sues on these grounds, where is the province of Alberta at?

Next to the age of Anne, this Waterways puzzle has them all as a packet of perplexities.

JASPER COLLIERY IS SUPPLYING COAL

TO G.T.P. AT RATE OF OVER ONE HUNDRED TONS PER DAY—TO INCREASE CAPACITY NINE

On Thursday of last week the first carload of steam coal from the mines of the Jasper Park Colliery company was shipped for use on the locomotives of the G.T.P., and since that date the concern has been turning out fuel for railway at the rate of 100 tons a day. Later in the fall the temporary plant now installed will have a production of 250 tons a day, and in the spring of next year, when the permanent plant will be installed the rate of production will be raised to 1000 tons every twenty-four hours.

The Jasper Park colliery, at mile 86, is the only source of coal supply along the route of the G.T.P. in the two new prairie provinces. From this line on the locomotives of the railway company will derive a very large proportion of their fuel from the west from these mines. This week the coal company secured a contract from the G.T.P. for 100,000 tons of coal, and the mines will be kept working at full capacity throughout the season.

E. B. Johnson, purchasing agent for the Jasper Park collieries, who came into the city last evening, stated to the Capital reporter that the rate of production would be greatly accelerated during the next few months. The supply, he said, is practically unlimited.

The area which is being operated by the company comprises some 11,000 acres, 6,000 of which lie to the south of the G.T.P. main line, while the main line of the C.N.R. runs through the northern portion of the coal land. The product of the mines consists of from 68 to 71 per cent. fixed carbon, and is one of the best steam coals mined.

Other Products.
"All through the western country, lime and salina are to be found in unlimited quantities," said Mr. Johnson. "The development of these resources is but in the experimental stage, and it remains to be seen to what extent they will be of value, but there is every reason to believe that the most fruitful of the country is enormous. In coal production alone the country west of Edmonton should in the near future become as important as the Great West area."

THIS DATE IN HISTORY

September 28.
1771—Massachusetts legislature dissolved by the royal governor.
1781—The siege of Yorktown begun by Washington's army and the French allies.
1789—Thomas Day, author of "Candor and Merton," died. Born June 22, 1748.
1853—The English emigrant ship "Atlantic" wrecked on the west coast of Scotland with loss of nearly 400 lives.
1863—King Charles I. of Portugal born. Assassinated February 1, 1908.
1870—The Germans defeated the French at Strasbourg.
1895—Louis Pasteur, the famous French chemist who first engaged his attention for the prevention of hydrophobia, died. Born December 27, 1822.
1898—Thomas F. Bayard, secretary of state in President Cleveland's cabinet, died at Bedford, Mass. Born in Wilmington, Del., October 29, 1829.
1890—The Seventh International Geographical congress opened in Berlin.
1904—Lafayette Hearn, noted author, died in Japan. Born in the Ionian Islands, June 27, 1850.
1906—President Palma, of Cuba, resigned.
1910—Dr. Manuel Gándara was elected president of Paraguay.

THIS IS MY BIRTHDAY

William Templeman.
William Templeman, one of the leaders of the Lib. party in Canada and Minister of Indian Affairs in the Laurier cabinet, was born in Pakenham Village, Ontario, September 28, 1844. His education was received in the public schools of his native place. When but twenty-three years old he established a newspaper at Almonte, which he conducted successfully for a number of years. In 1884 he went west and began the publication of a newspaper in Victoria, B.C., of which he has ever since been the proprietor. He embarked in politics in 1891, in which year he was an unsuccessful candidate for the House of Commons. In 1897 he was elected to the senate. He entered the government, without portfolio, in 1902, and four years later was appointed Minister of Indian Affairs. He was elected to the House of Commons for Victoria, B.C., in 1906. Two years later he was defeated for re-election, but in 1909 he was elected by acclamation as the Liberal candidate for Comox-Aln.

SCHOOL TRUANT OFFICER IS BUSY

LARGE NUMBER OF KIDDIES WOULD RATHER GO FISHING THAN TO SCHOOL

Business has been brisk in the department of the public school truancy officer since the opening of the fall term according to the report submitted to the school board last night, to that official. During the period from August 8 to September 15, 28 cases of absent truancy have been investigated. Of these, 21 were the pupils of the public schools and seven of the separate schools.

By an arrangement of the Edmonton Separate school board with the school management committee of the public school board, the truancy officer has been doing the work for the public schools in now taking charge of truancy work in the separate schools. In view of this fact, his salary was increased at last night's board meeting to \$1,000 per year.

The public school is to receive \$20 per month from the separate schools to provide for this increase.

Following is the detailed report of the truancy officer:

Found on streets of city, not going to school 26
Found working around the city and found to return to school . . . 11
Found leaving the city 2
Exempted by the Magistrate for 6 weeks 1
Found from school on account of sickness 16
Set to get certificates of vaccination. For not being vaccinated . . . 4
Kept at home temporarily by mothers 1
Out of school without just cause . . 2
Found working over 14 years of age . 2

BEGIN ERECTING STEEL NOVEMBER 1

CONCRETE WORK FOR C. P. R. HIGH LEVEL BRIDGE COMPLETE IN TWO WEEKS

Another two weeks will see the completion of the concrete work on the foundations of the C.P.R. high level bridge over the valley of the Saskatchewan river, between Edmonton and Strathcona, the work of actual construction having been in progress since the first of the year. The contractor for the foundation work are now concentrating all their energies on the completion of the masonry abutment at the brow of the hill on the Strathcona side of the river and under present circumstances the abutment will be completed within the next two weeks. If it was not for a shortage of gravel and sand the abutment could be completed in less than ten days, but was a held up from time to time cannot be secured to build hauling material to the bridge site as fast as it is required. Gravel and sand for the construction of the concrete work is being hauled from the Strathcona power house. It has to be hauled up the hill through Riverside park and along the railway grade to the brow of the hill above the site of the bridge. The material is being hauled by the grades are heavy. No more than half a dozen teams can be secured at one time. The concrete mixers were idle all day yesterday. The teams were busy hauling enough gravel to keep them in operation today.

Sixty frames weighing twenty-eight tons are being used to reinforce the abutment now under construction on the Strathcona bank. Attached to these are steel reinforcing rods of the regulation type with a total length of 15,000 feet, extending in various directions through the concrete. The abutment is the only part of the foundations in which reinforcing steel is being used. It is the only section of the concrete work as yet incomplete. The abutment to the Edmonton side of the river, the river piers and the smaller pedestals along the river side of the bridge on the Strathcona side are all finished.

Not probable that the erection of the steel superstructure of the bridge will be commenced until November 1st. None of the steel for the superstructure has arrived at Strathcona as yet. Inconveniently on the completion of the concrete abutment the work of filling in behind a wall can be commenced. It will take some time to complete this task.

Laying of the steel on the grade from the present C.P.R. tracks in Strathcona to the brow of the hill on the bridge site commenced last Friday. This is the work of a few days only.

COUNCIL TO AMEND BUILDING BY-LAW FOR FIRST TIME IN HISTORY OF CITY, INSPECTOR CAN ENFORCE LAW

By the passage of an amendment to the building bylaw which will be introduced in its final form at a meeting of the council next Tuesday, the building inspector will be empowered for the first time in the city's history, to enforce the provisions of the bylaw, whereby a standard of construction for buildings within the first class fire limits, is set.

In the old bylaw certain clauses were found to be in conflict with the charter, and at the last session of the legislature an amendment was carried looking to the elimination of the conflicting clause. It was not until a few weeks ago, however, that the council took advantage of their new powers. The fact that a new bylaw has been on the tapis for about a couple of years formed an excuse for procrastination.

On Tuesday the council decided that immediate action was necessary. The new bylaw cannot be brought brought down at once, so the old one is to be amended, inconspicuously with the amended charter.

If the amendments carry, the inspector will have power after Tuesday night, to move any building erected within the first class fire limits which is not in conformity to the bylaw, in place of the straight line of \$250 for violation, which was formerly his penalty. It was formerly his duty to issue a daily fine, which in the course of a few weeks would form an immense total.

Numerous shacks and other frail structures which have been erected on business streets, and which are removed by the building inspector before the snow flies. There will be no doubtless be no more of these and a large trade for the men in the house moving business.

ROYAL WELSH CHOIR—At the Empire Theatre Friday and Saturday of this week.

STRATHCONA FAILS TO REACH AN AGREEMENT WITH CONTRACTORS

Representative of Bondsmen Refuses to Sign New Agreement Submitted—Solicitor Instructed to Prepare Amalgamation Agreement for Submission to Legislature

Strathcona, Sept. 28.—At an adjourned meeting of the council last evening in which over two hours were taken up with tedious and fruitless discussion the civic officials failed to reach a new agreement with the Manly Construction company and their bondsmen, regarding the contract for sewer and water lines work in the city. In consequence the situation is practically unchanged and the company will be required to carry out the original contract within the terms specified or forfeit to the city. The failure of the contractors to make better progress on the work this summer has caused the council to feel that they will not be able to complete the work by next year, a state of affairs that it was particularly desired would be avoided.

The adjourned meeting last night was to consider a new agreement between the city, the company and the bondsmen, in which the corporation would arrange and assist in the hiring of the laborers. On behalf of the bondsmen Mr. Mackay declined to sign the document which was considered by the council. He was able to make more than the original terms required.

Two opposing deputations were on hand to discuss, an application from the Strathcona Garbage company for a crossing over the new concrete walk at First Avenue north. Mr. Brock for the company urged that a crossing be granted in order that entrance could be had to their stable from the street. He claimed that conditions made it practically impossible for them to use the lane exclusively for a right of way. Mr. Archibald and F. Harris speaking for themselves and other residents on the same thoroughfare protested against the installation of this house-warded avenue. After deliberation the council authorized a narrow crossing with the understanding that the com-

SUPERINTENDENT OF SCHOOLS TO ATTEND THE CONVENTION

Which Will Be Held in Ponoka in October—Management Board to Decide Allotment of Teachers

A request was made of the public school board last evening by J. McGee, superintendent of Edmonton schools that he be allowed to attend the annual provincial school convention to be held in Ponoka some time during next month. Attendance of which would take him away from his duties in the city for about two days.

The matter was carefully considered by the board. Chairman Ritchie pointed out that the board would be perfectly justified in allowing the school superintendent to attend as he would come in touch with provincial educational matters in a way that was absolutely necessary to one occupying his position. He expressed the belief that it would be time well spent on the part of the superintendent. Mr. McGee's request was granted.

An important matter came up in connection with the routine work disposed of by the school board last night. It was a resolution embodied with five others relating to different matters, in a report submitted by the school management committee and passed with the unanimous consent of the board. The resolution follows:

Before allotments are made to positions on the high school staff and to positions as principals and vice-principals of public schools, the question of such allotment shall be submitted to the committee on school management for its approval.

Increase in Salary. Other recommendations embodied in the school management committee report were that the trustee's salary be increased to \$1,000, in view

of his increased duties, that J. J. Stapleton, formerly of Weiskamper and appointed to the teaching staff of the board at a salary of \$1,000 per year and that in the matter of care taking the Edmonton high school be treated on a basis of twenty rooms at the usual salary of \$750 per month per room, to take effect September 1, 1911. These features of the report were endorsed.

Dr. W. J. Dunn, medical inspector of school children, was given the use of one of the rooms in the suite occupied by the school board in response to his request for a central office to carry on part of his work in connection with the schools.

The application of the Y.M.C.A. for the use of the assembly hall of McKay avenue school to hold practices for a contact was granted on the assurance of the applicants being given that an ample staff of trainers would be on hand to keep the performers straight.

The tender of the Imperial Foundry Machine company limited for the construction of an iron fence around the Empire school grounds at a cost of \$1,200 was also accepted. It was decided to order the old high school building to be sold to the 19th Alberta Dragoons for an armory at a rental of \$50 per month.

In the police court this afternoon, the question of whether or not the city poll tax collector should be allowed to ply the poll tax on behalf of the employees, will be decided. A charge has been laid against the Edmonton Iron Works of non-payment of this tax in such a manner.

"IN OLD KENTUCKY," announced for three nights and Wednesday matinee beginning on Monday, October 2, at the Empire Theatre. There is on offer the most successful and one of the most remarkable of the present-day dramas. While it has never visited this city before, it has been seen on numerous occasions in Winnipeg and in the larger eastern cities of Canada, as well as all over the United States and England, and its vogue is unusual and its drawing unparalleled.

It is on the boards season after season with no diminution of patronage. It possesses a charm all its own, for players. It is stirring and realistic in the extreme, but altogether wholesome and free from the slightest objectionable feature. A cast of unusual excellence is maintained with "In Old Kentucky." The original company appearing in all the leading Canadian cities will be the engagement here, not an inferior or number two company organization.

NORDICA IN EDMONTON NOV. 1. Nordica, the song bird, will sing one night in The Empire Theatre, Wednesday, Nov. 1, and judging from the number of seats that have been booked and the time so near it will not be sold out. There is on offer the most successful and one of the most remarkable of the present-day dramas. While it has never visited this city before, it has been seen on numerous occasions in Winnipeg and in the larger eastern cities of Canada, as well as all over the United States and England, and its vogue is unusual and its drawing unparalleled.

PROF. ALEXANDER'S LECTURES. Tonight Prof. Alexander gives his initial lecture on that most interesting of subjects, "Human Nature" at the Majestic Theatre. His reputation as a witty and humorous speaker is so well established that he will not doubt be greeted by a full house. At the close the audience will select prominent citizens for public reading on the stage. There will be no admission fee charged any night this week.

Western Presbyterian church will celebrate its sixth anniversary on Sunday, October 3, when services will be conducted by Rev. Alex. Esler, former pastor of Cook's Presbyterian church, Toronto, but now occupying the pulpit of Grace church, Calgary. A dinner will be served on Monday evening and a social entertainment will be held.

RELIABILITY ASSURED WHEN INVESTING THROUGH OUR OFFICE

CONSTITUTION OF THE FOUR

OPENING MATCH WILL BE PLAYED NEXT SATURDAY

The first match of the rugby season will be played at Diamond park on Saturday when the Y.M.C.A. and the Eskimos will clash in the first league fixture of the year. The Eskimos have been having fine practices and are working like machines. Their signal work is perfect and the men are in the best of condition. Last night there were about fifteen Eskimos out and a bunch of others who were able to play. The Y.M.C.A. have a husky bunch who are on the ball right from the start. It will be a strange thing if Calgary is not played on the field in all places this year.

WANTED—A TENNIS PLAYER

New York, N.Y., Sept. 28.—Interest in tennis circles was largely concerned today with the selection of a player to succeed Mr. Larned, who gave official confirmation to the report that he could not make the trip to Australia. Larned is a national champion. The tennis players say there is small hope of bringing back the cup from Australia.

WRESTLING.

Montreal, Sept. 28.—The wrestling season opened tonight at Bohème park with two good matches. Casasus, a new arrival from Europe, known as the French Lion, proved very good for Shad Link, the southern rough and tumble mat artist at the Green-Green style, and took two straight falls in twelve minutes.

Johnny Blum, a champion of Cleveland, was pinned to disappointment in his ambition to wrestle the world's lightweight championship from Eugene Trembley, Trembley taking two straight falls in 21:40 and 14:05. This match was at catch-as-catch-can style.

The formation of intermediate and junior divisions or series shall be left to the discretion of the executive to be dealt with when and how they desire.

impose a fine of \$10 upon any team violating this rule, and shall give the side not offering the choice of position.

2. The ball to be used in the match shall be provided by the home team, and shall remain the property of such team, unless otherwise mutually agreed upon before the commencement of the game.

3. No player shall play for any two clubs in the A. H. P. 11, in the same playing season, except if it is a higher series.

4. A player who has played for a club that has defaulted in any of its matches cannot play for another club in the same season year.

5. No member of a club which has a team in the senior series shall be eligible to play on an intermediate team having played more than once in the same union season on a senior team in a match.

6. No member of a club which has a team in the intermediate series shall be eligible to play on a junior team having played more than once in the same union season on a senior team in a match.

7. A player shall be eligible to play for a club unless he resides within fifteen miles of the city or place where the club is situated.

8. No player shall compete in a union game who has not been in a bona fide and continuous resident of the town or city in which his club belongs since the first day of September preceding the date of the said game.

9. In case of college students this residence shall apply from the date when they leave college.

10. In case of infringement of these rules, the executive shall have the power to rule out of the series the team in which such person plays, or shall have the option to award a match against such club or nullify such other penalties as it shall see fit.

11. All championship games shall be played on a neutral ground.

12. All clubs shall register with the secretary of the union on or before September 1 of each playing year the names of his club, and in two clubs in the same series shall be permitted to have the same colors.

13. In all championship games the referee shall have the power to

similarly, the home team shall provide different colored stockings.

11. No championship match shall be started until the captain shall have furnished the referee with an accurate list of the names of the players and substitutes.

12. Notice of the results of each match shall be sent to the secretary of the union within three days by the referee. The referee shall keep a list of the players ruled off during a match on a form supplied by the union. The report shall include the names of the players ruled off, the number of times ruled off, the offence and the penalty imposed. This report must be forwarded by the referee to the secretary of the union within three days after the match together with a report of the result of the match.

13. The referee shall stop the play if spectators encroach on the field.

14. The referee shall have the power to keep the grounds clear, and should they fail to do so after warning, the referee shall have the power to award a win, and in the event of a team defaulting two games in succession, all games in which they have participated shall be cancelled and no points allowed.

15. In the event of a tie game, the referee shall be decided by playing a further period of five or ten minutes each way, as the referee shall decide in his opinion, and if it is too dark to continue, and in the event of the same still resulting in a tie, the referee shall be allowed one point each.

16. In the event of a team defaulting a single game, their opponents shall be awarded a win, and in the event of a team defaulting two games in succession, all games in which they have participated shall be cancelled and no points allowed.

17. In the case of a tie in the series between two or more clubs, the tie shall be played off in such manner, at such time and place as may be determined by the executive, and all details of such match shall be under their control.

18. In all championship games the referee shall have the power to

MANAGER SCOUT MACKIN RETURNS

Has Signed Up Four Men and Has a String on Several Others—Team Is Complete—Has Met Many ex-Players of Western Canada League Wandering Among the Bushes of Minnesota and Wisconsin

Scout Jimmie Mackin returned from his trip among the eastern leagues and reports that he has several good players signed up and a number of others on the string. With the men that he has secured on his trip to the east and those who will be held over from last year the Eskimos for 1912 are a complete team.

Manager Mackin when speaking to the Capital reporter last night expressed himself as highly satisfied with the success of his trip. When spring comes around he will have no trouble. There will be no hurry in getting players to fill vacant places or to strengthen them up when they begin to lose. The team is complete, and he is not in a hurry to get on the field.

Manager Mackin says that perhaps he went a little crazy to get the best

satisfaction. The men at this time of the year have not been paid off and don't care whether or not they have a job for next summer.

He counted the look by thorough the Minnesota Wisconsin, Copper Country League, Michigan and Marquette. The Minnesota Wisconsin is the only one of these in organized ball. It is a class C organization but it is a good one.

Manager Mackin says the Superior team which was the pennant team this year is not better than the team in the Western Canada League. There are several old W.C.L. players on the lineup, some of them being Cy Young, Gump and Port, all of whom played in the W.C.L. and are now star men in that organization.

In Toronto he ran across our old friend Danny McGuire. Danny was working in a customs house there and was worrying his head off for fear he

would lose his job under the new government. Manager Mackin assured him that they were not very likely to have for some time. They might inspect the office but would probably overlook him.

O'Brien who played short stop for Calgary this summer was in Toronto. He had played three games for Galt and had picked up the better part of \$100 for the games. Knolly Lee was another of the Westerners whom Mackin saw in the east. Knolly was doing a great trade in players having several on the shelf at one time. He was buying and selling them right and left.

Manager Mackin has signed up four men and has a string on three or four others. He has filled up the third base and short stop positions on the infield one of the outfield positions and has strengthened the pitching staff by the addition of a big right hand pitcher.

Charles W. Boyer, proprietor of the River Times, in the city of Toronto, has been asked to start for Pittsburgh and made to stay over and umpire a ball game played for the benefit of the National Children's Play ground association. Marty was willing to lend his presence to aid the children but failed the publicity he got. He called him a thief or a robber during the game.

fact had the South Bend team of the Central League disbanded three days before the season closed was an accident public. "Games postponed on account of aviation news" was the excuse given out, but it developed later, according to reports, that the players were given part of their salaries on the Thursday before the league closed and east air.

AMATEUR PROFESSIONAL.

28. Catherine, Ont., Sept. 28.—The Athletic League team, the Vancouver team, to play a match with it, agreeable. "We will play them here in Toronto or any where they like," said Secretary Timmons this morning.

The Athletic management began to get busy when they learned that the Vancouver team may not play for Toronto for the main cup for fear their amateur standing would be in peril, the Young Toronto having been penalized by C. M. B. The Athletics are the unopposed champion amateur lacrosse team of Canada, so it was the natural thing for the western champions to play the Athletics.

home club shall be required to collect an admission charge of \$1.00 where two teams belonging to the same city are playing a senior match in that city. The referee shall be paid for each senior game, which amount shall be sent by the treasurer of the home team to the secretary of the union within forty-eight (48) hours after the end of the game.

40. All protests must be made within forty-eight hours after the completion of the game
